

MEDIA RELEASE

Boil Water Alert Lifted

Coonamble Shire Council is pleased to announce the boil water alert for Coonamble has officially been lifted as our water treatment plant has reached the required chlorine disinfection target (Critical Control Point – CCP) of 2.0 and the whole water reticulation system has been turned over with chlorinated water.

Water restrictions of hand watering ONLY between the hours of 7:00pm to 7:00am remain in place. Community water access from the showgrounds tank supply is still running during the hours of 7:00am to 12:00pm and 4:00pm to 6:00pm.

Sunday 22nd February – Water Interruption

On Sunday 22nd February around 12:00pm the Eastern side of Coonamble may experience a short water interruption due to the repairs of a water main after a water main break in the main street a couple of weeks ago.

Council thanks the community for its continued cooperation and patience during this critical period.
