## **MEDIA RELEASE**

### **ROAD CONDITIONS REPORT – SOME SEALED ROADS CLOSED**

Coonamble Shire Council advises the travelling public that all unsealed roads remain closed and several sealed roads are either closed or partly closed due to flooding or flood damage.

Quambone Road is still covered by more than 60cm of water at the Euronne Gully, about 9km from Coonamble.

Pilliga Road is open from its intersection with Baradine Road northward to Floddenfield Road. Pilliga Road is closed northward of Floddenfield Road to Pilliga.

Water across causeways has been reported at Merri Merri Creek on the Marthaguy Road, between Quambone and Warren; across the Baradine Road near the Warrena Weir; and across the Warren Road between the Castlereagh Highway and Gulargambone Road. Caution is required if travel is necessary.

All unsealed roads remain closed to all vehicle types (other than emergency vehicles responding to an emergency).

Council staff continue to monitor road conditions. An updated road bulletin will be issued as conditions change. Travellers should also check Council's website for current road condition reports.
