## **MEDIA RELEASE**

### **MERRI MERRI ROAD CULVERT REPLACEMENT NORTH OF QUAMBONE**

Coonamble Shire Council advises rural landowners and travellers along Merri Merri Road, north of Quambone, of culvert replacement work taking place in the coming week.

The culvert is about 23km north of Quambone, alongside the 'Allambee' property.

The road will be reduced to a narrow, single lane while the culvert is being replaced. Drivers should observe the traffic control signage and lights that will be in operation. It will not be possible to utilise a side track as part of this work due to forecast rain.

Drivers of heavy vehicles servicing properties north of the culvert work should use Quabathoo and Carinda Roads as an alternative route.

Council appreciates rural landowners and travellers' patience during the roadwork.
