**MEDIA RELEASE**

**ROAD CONDITIONS REPORT – ROAD CLOSURES DUE TO FLOODING**

Coonamble Shire Council advises all residents and travellers that Quambone Road and Pilliga Road are closed due to flooding. All unsealed roads throughout the Local Government Area also remain closed to traffic.

Anyone travelling on the sealed road network should drive with caution, as many causeways remain covered with water.

Coonamble residents are also advised that Coonamble Waste Management Facility is also closed today due to boggy conditions.

These conditions are likely to continue through the weekend. The NSW State Emergency Service expects minor to moderate flooding of the Castlereagh River as rain continues to fall in association with the La Niña event off the east coast.

Please share widely through your networks, and check in with friends—especially those isolated due to the closure of unsealed roads—to give them your support during these stressful times.
